May 2023

The weather is warming and spring in many places is just starting to wane. However...This past month has been incredible! Two really interesting trips in one month! How about that!

Our normally scheduled ramble...in April...was a visit to Spring Island along the coast. I could not make that one...but have pictures from Tom Austin who led the trip.

Also, we had a Director's Special in April, too. Tom Austin led that trip to Jehossee Farm along the coast, as well. I have a few pictures from that. Quite interesting.

=====
We lack the Secretary position with SCAN to help with some of the tasks that go along with keeping our group organized. We also need someone to step up and help with the Treasurer position.
If interested and want to step up...reach out to President Dave Schuetrum or Vice President Gordon Murphy.

From Tom Austin...

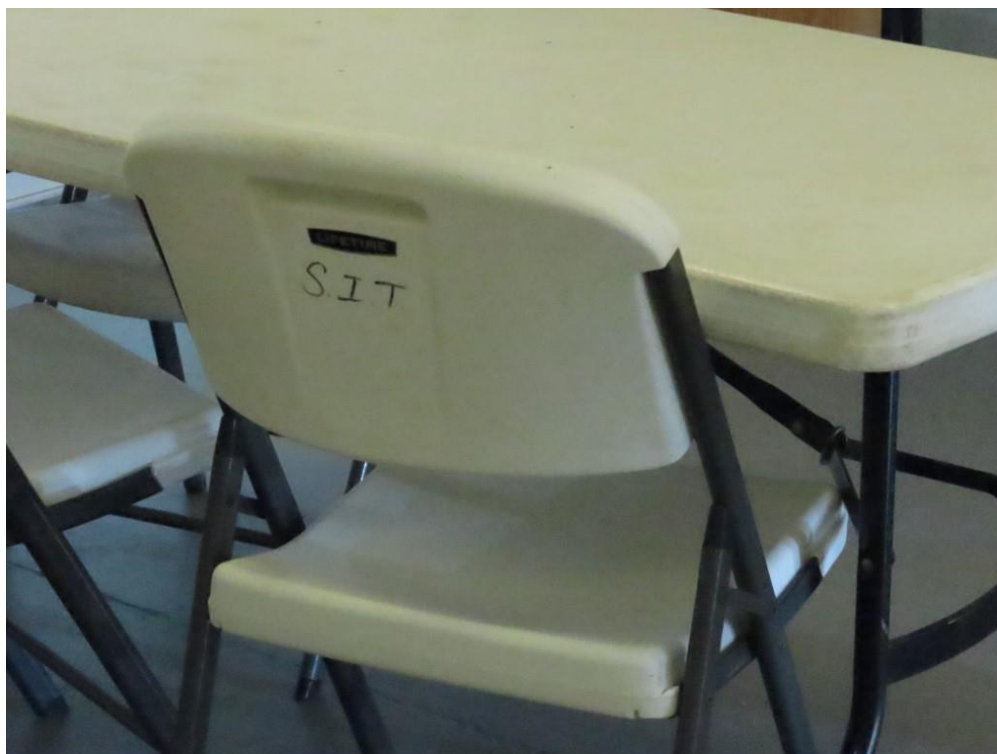

Spring Island is a private conservation community situated on a small 3,000-acre sea island nestled between the Chechessee and Colleton Rivers and straddled by the cities of Bluffton and Beaufort, SC. The development of Spring Island was initiated about 1990. Its master plan incorporated the conservation of large areas of greenspace and natural habitats in its design, alongside the siting of homes and creation of amenities for residents. There were two roughly 500-acre nature preserves set aside in the master plan as permanent conservation areas as well as numerous relatively natural common areas. These preserves are owned and conserved by the Spring Island Trust, who also manages the natural habitats across the Island and runs the Island's educational programs. Spring Island has large swings in elevation across the island, which is atypical of South Carolina's sea islands. This results in a diverse assortment of environmental conditions that can support a wide range of ecosystems. This promotes biodiversity of both plants and animals. So, expect to see not just our typical maritime and coastal critters but also species from all across the Lowcountry and even some more typical of the western Sandhills.

Ron Ahle gets credit for the group picture, (below). Here's who attended...in no particular order:

Tony Mills & Andy Jones (with Spring Island Trust), Dave Kastner, Marty Kastner, Tom Austin, Alison Smith, Mark Cujak, Ron Ahle, Angela Valvasori, Jerry Bright, Todd Johnston, Jeff Kline, John Demko, Jon Astor, Tessa Graham, and Gail Rahn.

A few pictures from Tom's camera...

A chair with instructions.

Bird watching beneath the Live Oaks.

Our trusty steed for the day.

The group ascending Star Mountain.

The view from atop Star Mountain.

Star-struck SCANNers posing with local TV star Tony Mills.

We also had a Director's Special to Jehossee Farm.

Jehossee Farm is a 485-acre privately protected property on Edisto Island. About half of that area is salt marsh. The remainder is a diverse mix of quintessential sea island habitats, including a tidal impoundment and broad areas of both maritime fringe forest and brackish marsh. The property has a known population of Eastern Diamondback Rattlesnakes. Eastern Black Rails have been documented on the property. Black-bellied Whistling-Ducks and Roseate Spoonbills are commonly seen in the tidal ponds. The property is also near Bear Island WMA and the ACE Basin NWR, so most any spring migratory bird is possible! Several species of uncommon coastal butterflies have been seen on the property too. *The full species list will be distributed in a later newsletter.*

Kim McManus gets credit for the group picture, (below). Here's who attended...in no particular order:

Phillip Harpootlian, Dave Kastner, Marty Kastner, Tom Austin, Dave Schuetrum, Jeff Kline, Scott Wietecha, John Demko, Claudia Stratmann, Johannes Stratmann, Lynda Curtis, Kevin Curtis, Frank Fleming, Bill Twomey, Nora Futrell, Jake Zadik, & (not in photo) Jon Astor & Duke Hagerty.

A few pictures from Dave's camera...

We all met at Legacy Live Oak Memorial Park, a convenient parking place off property, to get organized.

A few of the gang started to show up. We all mostly know each other.

I don't know what it was...

There's Duke. He was the guy who bought the place to keep it from being developed. I have discovered that we are surrounded by unassuming almost invisible people who are saving some of the last vestiges of important lands from development. What a great way to leave a legacy.

The tide was out and the marsh sure looked inviting.

We rambled as Duke told us about this place. He also told us the story about his favorite dog...a Labrador Retriever. It stuck with me in particular. They went everywhere. The dog was grabbed by an alligator, bitten by a Diamondback, and even got lost away from home and the cops brought him home from a nearby bar in the early morning. They all knew him. What a life.

Our next adventure will be Saturday May 27th to Francis Marion Forest / Old Santee Canal Park.
Dave Schuetrum President

=====

Francis Marion National Forest - Hell Hole Swamp / Old Santee Canal Park

BERKELEY COUNTY, SC

May 25th – 29th, 2023

Thursday – Monday

For the 11th year, SCAN will join the naturalist group Under a Low Country Moon (ULCM) for their annual interpretive weekend. ULCM has been gathering over Memorial Day weekend since 2001. The group focuses on snake, frog and turtle spotting throughout the Francis Marion National Forest. Teams and individuals slowly travel the dirt roads in vehicles and on bicycles, watching for snakes and other critters. Stops are made at pitcher plant bogs, ponds, pine forests and cypress swamps for on-foot exploration. The fun doesn't stop when the sun goes down! Evening road cruises are often the highlight of the weekend. Back at camp, folks gather around the fire to tell tall tales and roast a few marshmallows.

For the folks who wish to camp, follow the directions to the grassy field that serves as home base just off Hwy 41 on Hell Hole Road. This is primitive camping, so plan to “pack it in, pack it out.” The first campers typically set up Thursday evening and the last tents are struck around midmorning on Monday. For those who prefer hot showers on occasion, there are several hotels about 30 – 45 minutes away in Moncks Corner or Mount Pleasant.

Restrooms are available at the Circle K / BP in Jamestown, approximately 15 minutes away from camp.

Notes:

- Hell Hole Road has several large mud bog areas and is now **impassable** unless you're rolling in a lifted mud-bogger. Plan for on-foot exploration. Bicycles are a good alternative if that's more your style.
- The mosquitoes will be out in full force. Stock up on TheraCem, bug spray and long-sleeved shirts.
- The Subway located inside the Circle K has not been open consistently in recent years. Have a plan B in mind if you usually get sandwiches from this shop.

Saturday: 10:30 am start

SCAN's official outing day is Saturday. This year, we're exploring Old Santee Canal Park/Fort Fair Lawn on the Cooper River up in Moncks Corner. The 195-acre Old Santee Canal Park has a rich history on display, diverse ecosystems atypical of the coastal plain, many trails and boardwalks, kayak access, and an impressive interpretive center. Right next door inside the park is also the Berkeley County Museum and just beyond that is the newly opened 80-acre Fort Fair Lawn which gives us several more habitat types and another more trails to explore.

Old Santee Canal Park has a **\$5 admission** fee (\$3 for seniors/military). There are restrooms at the park. Additionally, please note that the park is having a Native Plant Festival the same Saturday from 9am to 1pm. So the parking area of the park will be busier and noisier than normal that morning. Thankfully the park is very long

For more information visit:

<https://www.oldsanteecanalpark.org/Explore/Index.aspx>

<https://www.berkeleymuseum.org/visit-us>

<https://www.battlefields.org/visit/battlefields/fort-fair-lawn>

Directions to Hell Hole Campground:

Forest Road 158 / Hell Hole Road
33.17825, -79.76649

From the Interstate:

1. From 1-26E, take exit 194 towards Road 16 / Jedburg / Pinopolis
2. Turn LEFT on Jedburg Rd and go 5.1 miles.
3. Turn RIGHT on US-176E and go 0.4 miles.
4. Turn LEFT on Black Tom Road / State Road S-8-467 and go 5.7 miles.
5. Keep RIGHT to continue on State Road S-8-413 and go 0.2 miles.
6. Turn LEFT at the 2nd cross street onto US-17 Alt N / South Live Oak Drive and go 5.5 miles.
7. Use the left 2 lanes to turn slightly LEFT onto US-17 Alt N / US-52 W / N US Hwy 52 and go 1.9 miles.
8. Take a slight RIGHT onto US-17 Alt N and go 5.6 miles.
9. Turn RIGHT onto Bethera Road / State Road S-8-48.
10. After 0.2 miles, continue on Bethera Road and go 5.4 miles.
11. Turn RIGHT onto SC-41 S and go 2.5 miles.
12. Turn LEFT onto Hell Hole Road / Forest Road 158.
13. Take the first RIGHT into the campground.

From Charleston, SC to Hell Hole Road, Huger, SC

1. Merge onto US-17 N / Arthur Ravenel Jr Bridge / Septima Clark Pkwy via the ramp to Mt Pleasant
2. At the end of the bridge, stay LEFT to continue on US-17 N / N Hwy 17 and go 7.7 miles.
3. Use the left 2 lanes to turn LEFT onto SC-41 N and go 5.4 miles.
4. Continue onto Clements Ferry Road / State Road S-8-33 for 0.1 miles.
5. Turn right onto SC-41 N and go 17.7 miles.
6. Turn RIGHT onto Hell Hole Road / Forest Road 158.
7. Take the first RIGHT into the campground.

Please note that Google Maps will take you to a different part of Hell Hole Road if you simply punch in "Hell Hole Road." Make sure you're navigating to the intersection of Hell Hole Road and Hwy 41. (Hell Hole Road is impassable from the Farewell Corner Road direction.) There are lots of dead zones and cell phone coverage is spotty. Texts work better than phone calls most of the time.

=====

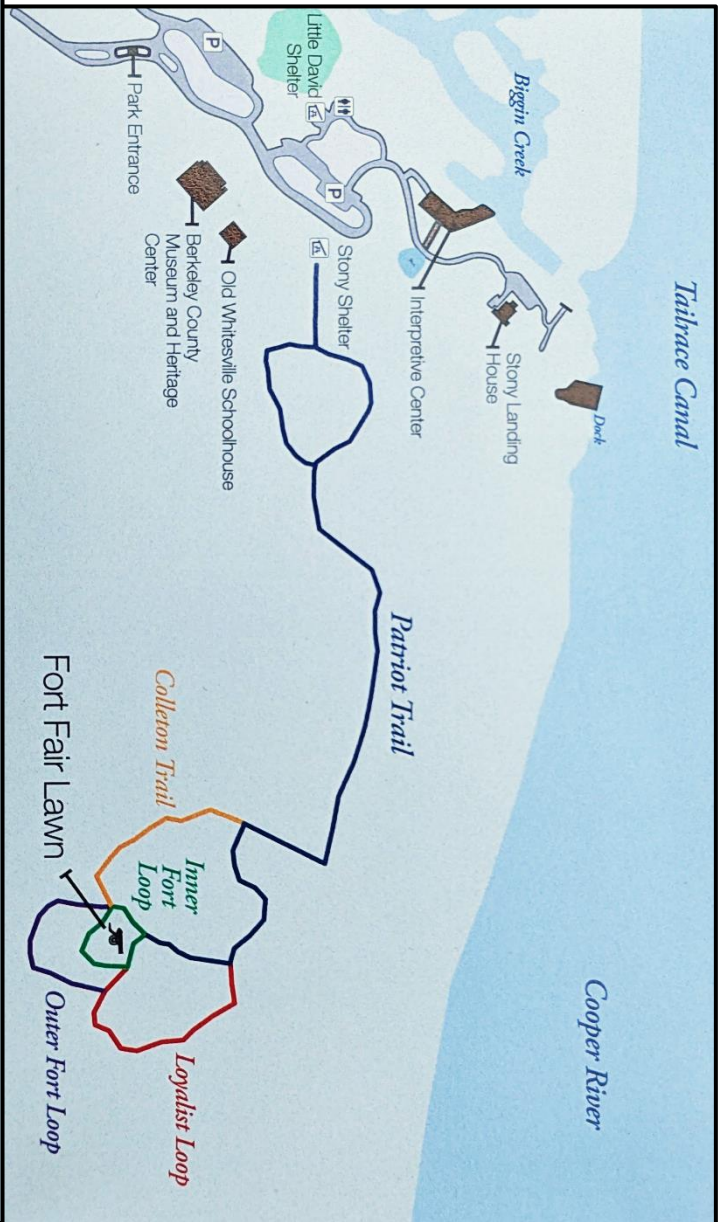

Directions to Old Santee Canal Park:

Stoney Landing Road, Moncks Corner, SC
33.19399, -79.97365

From Hell Hole Campground (~30 minutes):

1. Turn Right on SC-41 toward Boggy Head Rifle Range and drive 2.5 miles.
2. Turn LEFT on Bethera Road and drive 10.1 miles.
3. Turn LEFT on US-17 Alt S (at the road end) and drive 5.5 miles.
4. Turn LEFT on US-52 S (at the road end) and drive 1.3 miles.
5. Turn LEFT on US-52 Bypass S (at the first light after the canal bridge) and drive 1.1 miles.
6. Turn LEFT sharply onto Stoney Landing Road (at the first light) and travel ~0.7 miles to the gate.
7. Pay the \$5 admission fee at the gate and head into the park. Two parking lots are be on the left.

If you have questions about the weekend, please Kim McManus: scnaturalists76@gmail.com
