October 2019

Hello Fellow SCAN Members!

Our September outing to Hundred Acre Woods was a joint outing with the Carolina Butterfly Society. Between the two groups, we had a fantastic turnout.

The day was bright, sunny, and humid with temperatures in the low 90ies. Most of the group opted to explore the open sunny fields early and peruse the the forested areas of the trails later in the day. The Butterfly Society members made quick work of finding and identifying a variety of butterflies on the blooming plants in the fields and along the creek near the parking area. The exciting find of the day was spotted in the second field we perused. A Goatweed Leafwing had just eclosed and was waiting for its wings to dry completely, giving us ample opportunity to document it.

After lunch in the covered picnic area, we made our way to the wooded buffer area along the Edisto River. The Golden Silk Orbweavers were plentiful, with enormous webs stretched between the cypress and tupelo. Several trees had impressive hollows at the base, which provided us a few photo opportunities after we explored their nooks and crannies.

As we wrapped up the day, we found more evidence of the Goatweed Leafwing. A caterpillar was peeking out of the rolled leaf of a croton plant. Nearby, a female specimen flitted among the croton, flashing its orange wings.

Tom Jones has compiled our observations and entered them into the SCAN database. See the last pages of the newsletter for the summary. If you observed any species that is not listed, please submit them. [_____](#)

Our October outing is an optional overnight excursion to the Woodbury Tract in Marion County, SC. With 25,668 acres in the Heritage Preserve / Wildlife Management Area, there are many areas we have not yet explored. Join the group for the day or the weekend and help document the species of this vast area.

Kim McManus

however I encourage you to stay with us at the Lodge as we always have fun socializing late into the night.

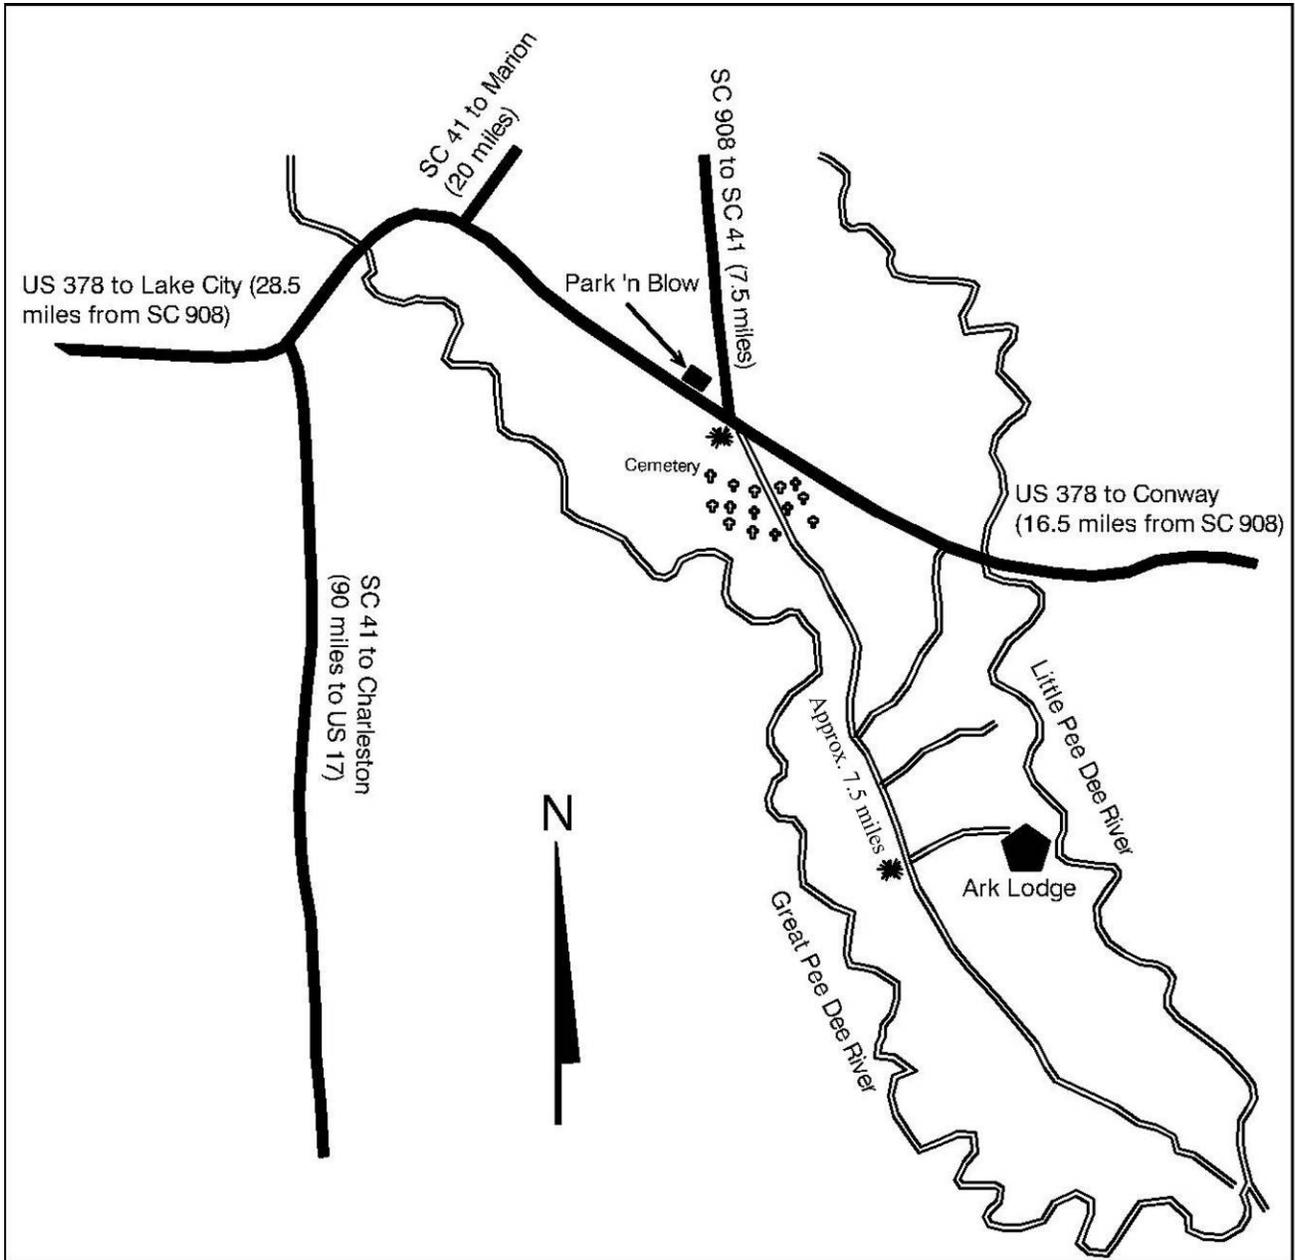

Food: Saturday night I will providing a vegetarian pasta dish, but if someone else could bring salad fixings and dinner rolls, I sure would appreciate it. A dessert dish would also be nice. We will put a notice on our Facebook page to see how many will be joining us and what side dish you would like to provide. You should bring your own lunch and breakfast foods and of course the beverage(s) of your choice. You are welcome to use the kitchen to prepare your meals and refrigerator for drinks and perishable food. It would probably be a good idea to bring a cooler and ice to help accommodate drinks.

If you do not use Facebook, please email me or call/text me to let me know if you will be staying overnight, if will need a bed, and what you will be contributing for dinner Saturday night. I will be going to the Lodge on Friday morning to make some final accessibility checks so if you would like to come down early, please let me know well in advance. If you join me on Friday, you will need to bring your dinner.

See you there!
Gordon

The Lodge is very comfortable and has a nice porch across the front that is great for hanging out. If this cooler weather sticks around, we may have to stoke the fireplace!

*Coordinates to Woodberry Road: **33°51.919'N**
